

Parquet milling machine PM 200

The problem solver for the removal of parquet flooring

Product description:

The problem solver for the removal of parquet

Accessories:

164252 PM 200 set of indexable inserts (incl. screws)

Technical specifications:

Voltage	230 V
Suction connection	38 mm
Working width	200 mm
Geschwindigkeit	6500 rpm
Power	2600 W
Total weight	90 kg
Rear weight	12 kg

Product benefits/features:

- ▶ Milling machine for the removal of glued HDF/MDF parquet.
- ▶ After milling, a residual covering of only approx. 1 mm remains
- ▶ Low dust emissions in the air due to fine dust extraction system
- ▶ Space-saving disposal of the old covering as small chips are produced
- ▶ Chips are deposited in a row behind the machine and can be collected afterwards
- ▶ Infinitely variable adjustment of the milling depth
- ▶ Adjustable chassis
