

Applying floors

## Weldmaster 2.0

### Automatic welding machine

#### PRODUCT DESCRIPTION:

The welding machine for professionals

#### ACCESSORIES:

13480 Heating element 3000W

#### TECHNICAL SPECIFICATIONS:

Voltage	230 V
Frequency	50 Hz
Speed	1.7-5.8 m/min
Weight	14 kg
Power	3100 W
Net weight	14 kg

#### PRODUCT BENEFITS/FEATURES:

- ▶ The Weldmaster 2.0 with the latest technology offers precise welding results combined with high working speed
- ▶ Special nozzles enable welding of PUR-coated coverings
- ▶ Precisely defined temperature preselection through digital control
- ▶ Simple control through central control panel
- ▶ Can be used for all elastic coverings (vinyl, linoleum, polyolefin, rubber, PUR)
- ▶ Better welding results due to variable contact pressure
- ▶ 4-fold welding nozzle: 4 single nozzles provide for targeted distribution of the hot air
- ▶ Automatic wall switch-off with simultaneous lifting of the heater and shut-off of the air supply. This prevents burns to the floor covering are avoided
